

MIGUEL ÁNGEL GONZÁLEZ PEÑA

PROFILE

- I am a videogame designer and communicator specialized in digital entertainment, with a solid technical and creative foundation. With training in data network management and advanced studies in interactive design, I combine my mastery of the Adobe suite, Unity3D, and programming languages to turn ideas into impactful audiovisual and playful experiences. My experience as a programming and game design teacher has allowed me to refine my ability to convey knowledge clearly and engagingly. Passionate about innovation and always up to date with the latest technological trends, I stand out for my creativity, teamwork, and commitment to excellence in every project.
